CAMELEON

PÉCS, Vasút str. 1. ★ GPS N46° 04,038' E18° 13,639'

Dear Competitors,

I would like to welcome you in Int. M6 LOG BARANYA CUP 2017 which will be held in the 15th times this year.

The city of Komló, from 2003 welcomes the representatives of rally society and looking forward to the qualifications of the National Rally Championship. **This year the competition will step on a new level, since it will join in the Mitropa Rally Cup 2016 series and become international.** We are hoping that, as always, you will leave this year's competition with full of great experiences and nice memories and next year you will come back to Komló.

This year we have planned a schedule that is even busier than usually. The competitors of Mitropa Rally Cup 2016 and the competitors of the National Rally Championship and National Rally Challenge will be racing together in group M in the 110 km long special stages. The Rallye2 and Historic will be in different groups but both will perform 92 km special stages for the qualification which exceeds the maximum directives.

I am happy to inform the concerned crews that on Int. M6 LOG BARANYA CUP 2017, this year again, MARB competitors can also start with the so called "individual start permission" which as its ancestor the "daily license" gives a peak to the Rallye2 championship. (min. requirements: race car with R2 technical passport, sport doctor certificate, successful exam in the knowledge of rules)

The program of the International Baranya Cup, this year again, built on the classical stages of Mecsek hill.

Some reasons to choose this competition:

RALLYE2 + HISTORIC

We offer a **92 km long special stages** on Int. **M6 LOG Baranya Cup 2017** for the contestants of both National Championships which is more than what is prescribed by the RVSZ.

RALLYE1 + ORB and ORC

The contestants of group M can use any race tires (that are corresponding to FIA regulations) on Int. **M6 LOG Baranya Cup 2017**. It is your chance to use leftover tires from previous races and have a great race with them! Meanwhile, ORB and ORC competitors:

- can test for the upcoming Kassa Rallye
- can test for Mecsek Rallye
- an/or can use leftover race tires

All this in an international race.

There is no better and cheaper race simulation!

MARB

With a so called "individual start permission" – by fulfilling all its requirements – **MARB drivers can start in Int. M6 LOG Baranya Cup 2017!** (min. requirements: race car with R2 technical passport, sport doctor certificate, successful exam in the knowledge of rules)

Here is your chance, 92 km special stages and real Rally2 n Int. M6 LOG Baranya Cup 2017!

Program in short:

- 03. August 2017 (Thursday) issuing the Road book, reconnaissance, Pirelli Test + official Test, optional administrative check
- 04. August 2017 (Friday) reconnaissance, checks, and special stages after the city Prologue
- 05. August 2017 (Saturday) competition from the morning to the night

We are looking forward to having all Competitors in the **Int. M6 LOG Baranya Cup 2017!**

Sincerely:

Tibor Markó
